BMW M3 E46 CSL SPLITTERS

of only 250 gr. weight, manufactured in our facilities in A Coruña (Spain) 100% in prepreg carbon fibre under ISO 9001 Management Quality System rules by qualified staff. This fabrication system which lends the best finished you can find on the market and a major thermal and structural stability.

It is a high-quality replica of the OEM splitters. They give your E46 a sport and forceful appearance, but they are not only an exterior accessory; thanks to their aerodynamic design, their great strength and lightness, they offer a major stability and road handling.

The CSL Splitters kit includes all the screws necessary for installation, very easy and quick for a perfect fitment guaranteed.

Besides, our pieces are numbered, so its origin and authenticity are granted.
